

## Frequently Asked Questions

### What Types of Companies Are on the "Don't Test" List?

This list includes companies that make [cosmetics](#), [personal-care products](#), [household-cleaning products](#), and other common household products.

All companies that are included on PETA's "don't test" list have signed our statement of assurance verifying that they and their ingredient suppliers don't conduct, commission, pay for, or allow any tests on animals for ingredients, formulations, or finished products anywhere in the world and will not do so in the future.

We encourage consumers to support the companies on this list, since we know that they're committed to making products without harming animals. Companies on the ["Do Test" list](#) should be shunned until they implement a policy that prohibits animal testing.

The "do test" list doesn't include companies that manufacture only products that are [required by law](#) to be tested on animals (e.g., pharmaceuticals and garden chemicals). Although PETA is opposed to all animal testing, our focus in those instances is less on the individual companies and more on the regulatory agencies that require animal testing.

### Legend

**V** - The company makes or sells strictly vegan products.

**L** - The company has licensed PETA's official cruelty-free bunny logo.

**F** - The company is a PETA Business Friend, and shopping at this company supports an innovative partnership for compassionate companies willing to assist in PETA's groundbreaking work to stop animal abuse and suffering.
